

Amin Zafari

Associate Product Manager

0912 890 5370 | aminzafari1378@gmail.com | [Linkedin](#)

Aspiring Product Manager with a background in **project management** and a strong foundation in **stakeholder collaboration** and **data analysis** for decision-making. Recently completed a Product Management course at Rahnema College, equipping me with skills in **Agile methodologies** and **user research**, enabling effective stakeholder communication to align product goals. With hands-on experience managing cross-functional projects, I am skilled at translating requirements into clear **user stories**. Committed to continuous learning and eager to make a meaningful impact by delivering innovative solutions in a dynamic product management environment.

EXPERIENCE

Project Manager

Apr 2022 - Jan 2024 (+1 yr,9 mos)

Pakshoma Group, (Manufacturer of Large Home Appliances)

Worked on identifying and defining optimization projects.

- Facilitated collaboration with cross-functional teams to define project scope and support the timely delivery of high-quality results.
- Worked closely with teams to find and resolve obstacles, making sure projects stayed on budget and on schedule.

Project Management Specialist

Sep 2021 - Apr 2022 (+6 mos)

Blue Whale Agency, (Marketing and Branding Agency)

Assisted in delivering projects to clients, ensuring alignment with their requirements and timelines.

- Conducted a data-driven **market research** survey for an oral care study, reaching over **2,000 participants** and gathering actionable insights to inform future product development.
- Worked closely with freelance teams to keep projects aligned with strategic goals and maintain high quality, improving on-time delivery rates.

Co Founder

Dec 2019 - Sep 2021 (+1 yr ,9 mos)

Meghyas Group, (Financial Service Start-up)

Contributed to the **development of a new product**, addressing a specific **market gap** identified through research.

- Developed strategic insights by conducting in-depth market and competitor analyses, identifying key trends and opportunities that informed the creation of innovative product features.
- Analyzed **market needs** and designed a customized educational course that **engaged over 3,600 participants**, enhancing user interaction and satisfaction.

SKILLS
